PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience specializing in the **MERN Stack, TypeScript, and PHP**. Proven track record at Hiraya Digital delivering 15+ diverse projects including custom Shopify Liquid themes and WordPress plugins. Expert in building end-to-end commercial platforms with integrated payment gateways, custom CMS solutions, and AI-driven automation using the Multiple LLM Model.

TECHNICAL SKILLS

Frontend: React, TypeScript, Redux, Tailwind, Liquid (Shopify)

Databases: MongoDB, MySQL, SQL

Backend: Node.js, Express, PHP, Python, Custom CMS/Plugins

Integrations: Gemini CLI, Codex, Payment Gateways (Stripe/PayPal), JWT, REST

PROFESSIONAL EXPERIENCE

Hiraya Digital, LLC

Full Stack Developer (L3)

Remote
Oct 2025 – Present

- **Diverse Tech Stack:** Delivered 15+ concurrent projects using **TypeScript, PHP, and MERN**, maintaining a 100% on-time deployment rate for global clients.
- **E-Commerce Specialist:** Engineered custom **Shopify (Liquid)** themes and **WordPress plugins**, increasing storefront load speeds by 35% and improving SEO rankings.
- **Architecture:** Designed and implemented scalable backend services in PHP and Node.js, handling complex data migrations and third-party API orchestrations.
- **Performance:** Optimized frontend performance for high-traffic sites, reducing First Contentful Paint (FCP) by 40% through code-splitting and asset optimization.

Freelance Software Engineer

Full Stack & UI/UX Design

Remote
Apr 2023 – Oct 2025

- **Internal Tools:** Built a MERN-stack export dashboard for *Shivansh International*, automating documentation and reducing clerical errors by 30%.
- **Brand Launch:** Developed "Kristoper" and "Daub" websites from prototype to production, ensuring cross-browser compatibility and responsive UI.

KEY PROJECTS

Kristoper – International Import-Export Platform

MERN / TypeScript

- Developed a complex E-commerce platform for international clients specializing in **import-export logistics**.
- Architected a **Custom CMS** and integrated an **AI-driven Chatbot** (Gemini API) to automate client inquiries and item tracking.
- Implemented secure **Payment Gateways** and TypeScript-based state management for seamless global transactions.

Honest-Fermont – US-Based Restaurant Solution

PHP / MySQL

- Built a full-stack digital platform for a **US-based Indian Restaurant**, featuring online food ordering and dish management.
- Engineered a **Custom CMS** for real-time menu updates and integrated a robust **Payment Gateway** for secure checkout.
- Enhanced user engagement with an **AI Chatbot** for automated table bookings and dish recommendations.
